Dear Dr. Meselson:

Under separate cover I am sending representative workers of the Thai honey bees, as you requested. I have chosen two workers from each species for each month represented in Seeley's collections. Additional label data for the specimens are as follows:

A. cerana: Nov. 1979 - 29 Nov., nest 80
Mar. 1980 - 11 Mar., nest 78

A. dorsata: Mar. 1980 - 12 Mar., Khag Yai Park
Jan. 1980 - 6 Jan., Ban Mae Jo, water tower
Dec. 1979 - 16 Dec., Wat Mungguy

A. florea: Jan. 1980 - 10 Jan., nest 119
Mar. 1980 - 31 Mar., nest 181
Dec. 1979 - 28 Dec., SEE-TDS-25-122

If you need additional specimens, please let me know. Best of luck with this study.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "George C. Eickwort".

George C. Eickwort
Professor of Entomology
